

Today's Report (10-Mar-2025)

Using Named volume

Employee On-board-code : <http://43.204.217.180:8037/>

The screenshot shows a web browser window with the address bar displaying "Not secure http://43.204.217.180:8037/". The page title is "Employee Onboarding Form". Below the title is a horizontal menu with six tabs: "Personal Details" (active), "Contact Information", "Address Information", "Educational Details", "ID Uploads", and "Previous Company". The "Personal Details" section contains the following fields:

- First Name***: A text input field.
- Last Name***: A text input field.
- Date of Birth***: A text input field with a placeholder "DD-MM-YYYY".
- Gender***: A dropdown menu with the option "Select Gender".
- Blood Group***: A dropdown menu with the option "Select Blood Group".

I have Changed the Title : <http://43.204.217.180:8047/>

Employee Onboarding Form

Personal Details | Contact Information | Address Information | Educational Details | ID Uploads | Previous Company

Personal Details

First Name*

Last Name*

Errors I found in on-board form

- The first name and last name takes numbers and special characters while entering and date is taking past and future dates.

First Name*

4568\$%#@

Last Name*

%\$#@9078

Date of Birth*

20/09/2050

- The Guardian name and phone number is taking too many characters while entering.

Guardian Name*

AA

Guardian Mobile Number*

999999999999999999999999

- Email address is taking start with zero ,special characters and phone numbers is taking zeros there is no notification while entering

Email*

0000@yyyy\$^&

Phone*

```
00000000000000000000000000|
```

- In city and state places we don't have any option to write or select the correct address , it gives option city 1,city 2 and state1 and state 2.

City*

City 1

State*

State 2

Employees Punch-In-Out-Code : <http://43.204.217.180:8044/>

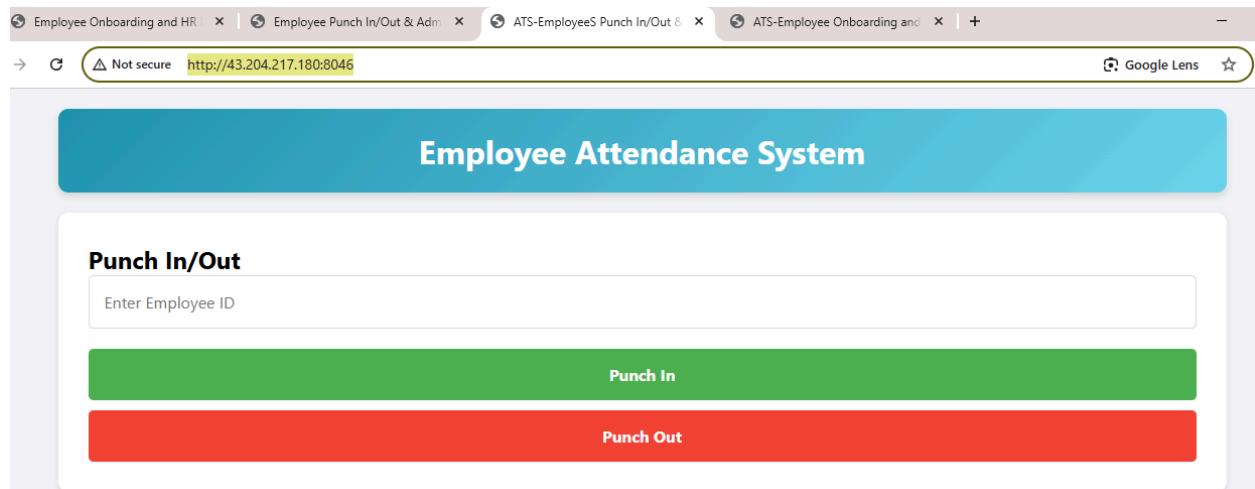

The screenshot shows a web browser window with the address bar displaying "Not secure http://43.204.217.180:8044/". The page title is "Employee Attendance System". The main content area has a light blue header with the title. Below the header, there is a section titled "Punch In/Out" with a text input field labeled "Enter Employee ID". Below the input field, there are two large buttons: a green "Punch In" button and a red "Punch Out" button. Below these buttons, there are three tabs: "Today" (selected), "This Week", and "This Month". Below the tabs, there is a search bar labeled "Search employees...". At the bottom, there are three employee cards, each displaying an ID and a date: "ID: ATS0457 Date: Mar 10, 2025", "ID: ABC0123 Date: Mar 10, 2025", and "ID: XYZ0129 Date: Mar 10, 2025".

Errors I found in employees punch-in-out-code

- Employee Id is taking zeros's as well.
- It will start with numbers as well.
- It also takes small letters also.
